OPERATIONAL

- 1.5.12** In events where the conventional Sprint format is used, after the completion of the first two timed runs, constituting the event for all entrants, event organisers will provide a run-off in the following manner:
- 1.5.13** The 12 registered competitors from the first two class runs recording the best times will be grouped together in a special class and given two further runs. The order of running, subject to force majeure, will be based upon the times previously recorded, the fastest running last. Where competitors sharing cars both qualify, the running order shall be adjusted to permit no less than 4 cars to run between each of the drivers in each shared car, during both runs. More than one car at a time may be permitted on the course during the run-off. The 12 fastest will score points as in Regulation **1.6.2**. If the constitution of the run-off is not possible within the above criteria the organisers shall specify a method of constitution.

Should it become apparent to the organisers that any of the fastest 12 registered qualifiers is unable to compete in the special class, when this is determined, the organisers will offer to the 13th best qualifier the opportunity to take part. Such opportunity continuing in order of qualification until such

time as the special class has 12 active competitors (unless this is not possible).

1.5.14 Any non-registered competitor qualifying for an Absolute Best Time of the Day award at the end of the class runs may be afforded the opportunity of becoming an additional runner in the Championship class, but will not score points in these runs, or affect the points of registered contenders.

1.5.15 An event will qualify as a counting round upon the completion of the first Top Twelve Championship runs. Should an event be abandoned during the second Championship runs, only the first Championship run will count for points. Should an event be abandoned before the Championship runs points will be awarded based upon the order in which the 12 contenders in **1.5.12** qualified as in Regulation **1.6.2**, when all registered contenders have been given the opportunity of at least one timed run.

1.6 Scoring:

1.6.1 In order to qualify for points a competitor must be classified as finisher.

1.6.2 The points awarded to registered contenders, relative to their overall position in the Top Twelve Run-Off for each Championship event will be:
1st. 12 points reducing by one point for each position to **12th. 1 point**

1.6.3 Competitors points scoring will be recorded by the Championship Co-ordinator and bulletins, showing current positions, will be sent to all organisers and competitors periodically.

1.6.4 Points scored in any ten of the seventeen qualifying rounds will count towards a competitor's final Championship total. Should circumstances dictate a change to the number of qualifying rounds the following scoring system will be **used**:

16-17 events Best 10 scores to count - 10-11 events Best 7 scores to count

14-15 events Best 9 scores count - 8-9 events Best 6 scores to count

12-13 events Best 8 scores to count - 6-7 events Best 5 scores to count

1.6.5 In the event of a tie between two or more competitors, for the purposes of all awards, the following tie-break procedure will be adopted in the sequence shown until a result is obtained:

(a) The number of best places from the counting rounds will be counted.

In the event of Regulation **1.5.15** (3rd sentence) being invoked then any times set in the timed run or runs upon which points are based which break the existing Championship Record shall attract an additional point or points to those awarded by virtue of the competitor's finishing position. In the event of a new venue (where no records exist) Championship Records will be set after the completion of the first Top 12 Run Off. Where initial records, for a venue, are set in wet conditions then at subsequent events (until records are reset) an average shall be taken of the percentage by which the fastest timed runs in each category are improved and all records shall be adjusted by that average.

- 1.6.9** No time, at any venue, shall be taken as the Championship Record for any Category which exceeds the Category Average Differential by greater than 10% (to allow the Championship Organisers to substitute a time, where no record exists and avoid "unrepresentative" times).
- 1.6.10** The Differential for each venue, for each Category, and the Category Average Differential shall be published in accordance with Regulation **1.6.7** (and the Category Average Differential will exclude any substituted times).
- 1.6.11** Each differential shall be calculated: $\text{Category Time} \times \text{Unlimited Racing Car Category Time} \times 100$ (this percentage shall be corrected to one decimal place).

Competitors will count scores from their best number of rounds as in Regulation **1.6.4** earlier.
- 1.6.20** The scores at each event, as **1.6.19** above, will be supplemented by an additional point to any competitor who breaks the Championship Record for that Category as detailed in **1.6.7** earlier, during the Timed Runs (2 points if it is broken in both runs).

1.6.27 Should the event be wet, then the fastest timed runs, in each category, will be compared to their respective Championship Records and an average of the three closest categories to their records will be used as a factor by which all Championship Records at that venue at that event will be uplifted for the purposes of scoring within the context of these paragraphs. In the event of any "substituted" time (**1.6.9**) the maximum score shall be 105.
